Prodways extends its market coverage to Poland with Focus 3D and to Russia with Consistent Software Distribution (CSD)

After a successful participation at Photonics West with its proprietary MOVINGLight® technology, Prodways, subsidiary of Groupe Gorgé, announces the signature of 2 new partnerships agreements with Focus 3D in Poland and Consistent Software Distribution (CSD) in Russia.

Founded in 1989, Consistent Software Distribution (CSD) is the leading distributor of software, CAD, GIS, Plant design markets in the Russian Federation. CSD consultancy business rapidly develops in the fields of advanced technologies, BIM, 3D printing/scanning and is now leading more than 100 dealers and resellers in Russia.

With a deep knowledge of the market, focus on solution selling, Consistent Software Distribution (CSD) choose to partner Prodways and distribute its unique 3d printing technologies to a maximum market coverage in Russia.

"We are very pleased to be a partner of such a reliable, dynamic and strong company with the variety of innovative, high-quality and multifunctional products. We not only supply equipment but also provide our clients with technical support and innovative solutions of complex tools. We are sure that our cooperation will lead to a successful Prodways launch on the Russian market of 3D equipment", said Andrey Trofimov, CSD Strategy Director.

In Poland, Focus 3D, is a specialized distributor of 3D solutions for dentistry. While the dental industry is increasingly using intra-oral scanners, thereby bringing the workflow into the digital realm, Focus 3D naturally choose to partner with Prodways as the specialist for 3D printing solutions in dental.
Those 2 new partnerships in Poland and Russia will extend Prodways market coverage and definitely strengthen its key position as a major player in the 3D printing market.

About Prodways

Prodways, a subsidiary of Groupe Gorgé, assists major industrial firms with innovations and production processes by providing high-end solutions for additive manufacturing. Prodway’s strategic positioning is to combine the necessary technological solutions with the capacity to provide services and support necessary to help companies develop and meet industrial challenges by:

- providing a top-quality, state-of-the art industrial solution
- providing a complete range of technologies to meet their needs in terms of productivity and reliability
- developing materials suited to industrial constraints (mechanical properties, biocompatibility, flammability etc.)
- proposing product design and engineering and consulting on production technologies and processes
- qualifying business processes beforehand by creating test parts and process simulations
- proposing manufacturing solutions for back-up and peak reduction
- investing in innovative players in the 3D ecosystem.

Prodways is now one of the few players able to overcome all industrial challenges and boost the emergence of additive manufacturing in series production. Prodways’ offer is backed up by additional activities that enable it to position itself as a serious rival to the two global market leaders and also become the only company outside the USA to offer clients a wide range of 3D printing technologies and a complete range of 3D printing services.

Disclaimer
This press release could contain statements on past events and forward-looking statements including statements regarding future goals or targets. Forward-looking statements reflect current expectations for results and future events. Such forward-looking statements and targets depend on known and unknown risks, uncertainties and other factors that may cause actual results, performance or events to differ materially from those anticipated herein. All these risks and uncertainties could affect the Group’s future ability to achieve its targets. Risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements and targets include, among other things: the risks and uncertainties possibly mentioned in this press release; the strength of competition; the growth of the market; currency fluctuations; interest rate fluctuations; raw materials and freight price fluctuations; armed conflicts or political instability; control of costs and expenses; changes in tax legislation, rules, regulation or enforcement; our ability to successfully keep pace with technology changes; our ability to attract and retain qualified personnel and key-men; the evolution, interpretation and uniform application and enforcement of International Financial Reporting Standards (IFRS), according to which we prepare our financial statements; supply chain bottlenecks; the performance of our business partners (subcontractors, agents, suppliers, etc.).

Some of these risk factors are set forth and detailed in our Document de Référence (Registration Document including the annual financial report filed with the French Autorité des Marchés Financiers). This list of risks, uncertainties and other factors is not limitative. Other non-anticipated, unknown or unforeseeable factors could also have material adverse effect on our targets. The Group expressly disclaims any obligation or undertaking to update or revise any forward-looking statements or targets potentially contained in this press release to reflect any change in events, conditions, assumptions or circumstances on which any such statements are based.
