

#### About Groupe Gorgé

Established in 1990, Group Gorgé is an industrial group operating in different areas of expertise:

**Smart Safety Systems** – Using technology to work in risk environments;

**Protection in Nuclear Environments** – Protecting people and securing buildings operating with radioactive materials;

**Industrial Projects & Services**  
Conducting Robotics and Fire protection systems projects for industry and service-sector player;

**3D Printing** – Enabling major industry players to find new routes to successful innovation and production processes by providing systems, 3D printers and new premium material.

In 2013, the Group reported revenue of €214.5 million. It is backed by 1,300 employees and operations in over ten countries.

## Prodways, a subsidiary of Groupe Gorgé, will attend IDS (International Dental Show) and announces two new partnership agreements.

After the success of the EuroMold 3D printing world tradeshow, where Prodways launched its new ProMaker line dedicated to dental, the Groupe Gorgé subsidiary is pleased to announce that it will attend the International Dental Show in Germany from March 10<sup>th</sup> - 14<sup>th</sup>, hall 4.2 booth L29. Prodways has also signed two new partnership agreements.

IDS is the world's foremost tradeshow dedicated to the dental industry, with more than 2,000 exhibitors from more than 50 countries. Prodways, collaborating with DeltaMed, will present its ProMaker line, dedicated to dental industry, as well as premium materials for specific applications.

Prodways will also take this opportunity to announce two new partner agreements; with Kreos as agent in France and NextStep3D as agent for the Netherlands, Belgium and Luxembourg (Benelux) markets. As key players in additive manufacturing, Kreos and NextStep3D will supply, service, and provide technical support regarding Prodways solutions and materials.

Denis Hamant, Managing Director at KREOS, states, "We're happy to go ahead with a new step in announcing our partnership with Prodways. This will give us the opportunity to offer our customers the most effective 3D printers on the market."

Bas Beltman, Managing Director at NextStep3D also comments, "Nextstep3D is pleased to be working in partnership with Prodways. We believe this exciting product range from Prodways will complement both our own solution portfolio and the general additive manufacturing industry very well."

#### # About KREOS #

Specialized in prototyping systems, KREOS distributes and installs 3D equipment in France and abroad. Based on more than 10 years' experience in 3D equipment and technology, KREOS offers a wide range of products. KREOS is well-known in the medical field (dental and hearing systems), but also in industry and jewelry. KREOS offers comprehensive solutions from 3D scanners to 3d printers, digital milling machines, and vacuum casting.

#### # About NextStep3D #

NextStep3D specializes in additive manufacturing (3D-printing) solutions to medical, dental and industrial manufacturers. Supplying quality products to meet specific needs, including full support (consulting, installation, training, and service contracts).

NextStep3D assists its customers in using this innovative technology to complete the evolution from prototyping to final product fabrication, and exploring the possibilities beyond traditional production methods. With this methodology, NextStep3D enables its customers to produce more efficiently and sustainably, therefore achieving a significant edge on their competitors.

#### # About Prodways #

Prodways, a subsidiary of Groupe Gorgé, assists major industrial firms with innovations and production processes by providing high-end solutions for additive manufacturing:

- Prodways Technology: based on innovative MOVINGLight® technology, Prodways offers 3D printers capable of producing objects of unsurpassed quality for a wide range of industrial and biomedical applications with significant savings.
- Prodways Materials: with the acquisition of DeltaMed, Prodways has particular expertise in the development of innovative premium composites, hybrid, and bio-compatible materials with outstanding performance.
- Prodways Customer Support: relying on a strong network of experts, Prodways provides complete services to optimize the usage of your systems, from training to on-site assistance, as well as customer-specific developments.
- Prodways Entrepreneurs: providing support and financing solutions for companies working in 3D printing, Prodways seeks to ensure 3D printing emerges as a European industry based in excellence.
