## Groupe Gorgé is pleased to welcome Emmanuel Macron, French Minister of the Economy, Industry and the Digital Sector, to its Prodways subsidiary

To mark Industry Week, Emmanuel Macron, Minister of the Economy, Industry and the Digital Sector will visit the Groupe Gorgé site at Mureaux on Friday, 3 April 2015 for a tour of Prodways, the French and global leader in 3D printing.

3D printing is a key component of France's industrialisation plan, "Plants of the Future", to be given priority by the Minister as part of the review of the country's industrial strategy and seen as one of the drivers of the digital transformation of industry.

The Minister's Prodways visit will take in the Research and Development Department and the 3D printer production studio for a presentation of the Group's know-how and the latest technologies in the field.

The Group is honoured to receive this visit by the Minister one week after it announced its new ambitious plans for Prodways, namely to become the third-largest player in the world to offer a range of multi-technological services and all 3D printing services to its customers (see press release dated 26 March 2015).

#### About Prodways

Prodways, a subsidiary of Groupe Gorgé, assists major industrial firms with innovations and production processes by providing high-end solutions for additive manufacturing:

- Prodways Technology: based on an innovative MOVINGLight® technology, Prodways offers 3D printers capable of producing objects of unsurpassed quality for a wide range of industrial and biomedical applications with significant savings.
